Name: Lisa N Wright

Address:

Clover, SC,

Organization: Private Individual

General Comment

All companies should have the right to decide whether to provide birth control and/or pregnancy termination procedures in their health care plans.

Any company that has religious objections to the above should be exempted from the currently required practices above. By not allowing them to do so, you are requiring them to live against their religious conscience or terminate insurance coverage to their employees.

This is a direct attack of our government again God and Christianity.
